

Peter Lount | Resume

588 East 11th Avenue, Vancouver, BC, Canada, V5T 2C9 | 778-686-2461 | Peter.Lount@gmail.com

I'm Peter Lount, a results-driven team player and, when needed, a team leader who's managed teams and solved problems for major clients and employers. I'm here to bring those skills to a role with your team.

Results Focus Objectives

I deliver impactful results across diverse roles, believing no task or job is too small or unworthy of excellence:

- **Team Leadership & Training:** Led teams of up to 15, improving performance and morale through coaching and mentoring—ideal for staff development roles.
- **Problem-Solving & Coordination:** Solved complex challenges and streamlined operations, ensuring reliability under pressure—key for logistics and service delivery.
- **Communication & Stakeholder Liaison:** Translated needs into action plans, building trust with diverse groups—valuable for customer-facing and support positions.
- **Project Delivery:** Managed small- to large-scale projects to completion, meeting deadlines and goals—applicable to operational oversight.
- **Adaptability & Process Improvement:** Thrived in fast-paced settings, enhancing efficiency and quality—sought by dynamic workplaces.
- **Commitment to Service:** Delivered measurable outcomes for Fortune 100 clients and startups, with a focus on confidentiality and results—relevant to client trust and safety.
- **Diverse Roles:** Successfully participated in, led, and directed projects for multiple Vancouver-based companies and startups, as well as Fortune 100 corporations, achieving measurable, on-time outcomes across industries such as internet technology, banking, insurance, engineering, and finance, plus more routine roles.

Clients Include: JP Morgan (Wall Street), Geico Insurance and Fannie Mae (Washington, DC), Progressive Insurance (Cleveland), Deluxe Corp. (check printing, Minneapolis), Vancouver-based Condor Rebar Consultants Inc. (SkyTrain & Rebar Software), and Vancouver-based internet startups, installing and programming servers, web apps, desktop apps diverse technologies for wide variety of business, finance, health, construction, video compression, Et alia.

Education: I hold a Diploma in Systemic Neuro-Linguistic Programming (NLP) with a specialty in Systems Analysis from Erickson Coaching International (Erickson.edu), where I trained in advanced NLP techniques, Ericksonian hypnosis, advanced expert performance modeling, and coaching methodologies, recognized by USA Immigration for my NAFTA TN1 visas.

This rigorous program equipped me with skills in Milton Erickson's hypnotic language patterns, trance induction, and solution-focused coaching, blended with systemic thinking to drive rapid, impactful change in team leadership and systematic as well as intuitive problem-solving.

Complementing this, my lifelong autodidact approach has fueled continuous self-directed learning in computer science, electronics, human interpersonal skills, conflict resolution, and beyond — a dedication validated when USA Immigration recognized my expertise as equivalent to a Bachelor's in Computer Science for my H1B & TN1 visas.

This dual foundation of systems expertise and human factors for getting the job done empowers me to adapt, mentor, and innovate across diverse professional landscapes.

Achievements: Lifetime ACM Member; CES "Best Hybrid Video Game" Award, 1985.

Let's discuss how I can contribute to your team. A detailed CV is available upon request.
